

Riverbend Health — Consolidated Patient Record

Record assembled ENC-2025-871661 · medical record number MRN9289362 · printed for internal review

This record consolidates the registration data, encounter notes, results and billing entries held for the patient named below. It supersedes any partial extract previously circulated.

1. Registration

Patient of record: **Lee George Daniel**, date of birth 1951-09-24. The patient resides at 835 Jeremy Bypass Suite 641, New Nancy, MD 28370 and confirmed at check-in that this address remains current for correspondence and for the mailing of after-visit summaries.

The patient is best reached on 346-627-0482 during business hours and has opted in to portal messaging, delivered to lee.daniel90@wilsondyeran.com. Interpreter services were not required.

Registration verified against photo identification presented at the desk. No discrepancy noted between the presented document and the record.

For coordination of benefits the registrar recorded that the social security number on file is 325-58-9655; this was read back and confirmed. The patient declined to supply a secondary insurer at this time.

Amounts shown are stated in United States dollars unless otherwise indicated. Figures may be rounded to the nearest cent and totals may therefore differ from the sum of their components by a small margin. Corrections identified after issue will be reflected in the next scheduled statement rather than by reissue.

Where a discrepancy exists between the summary tables and the underlying records, the underlying records govern. Summary figures are provided for convenience only and are regenerated whenever the source data changes.

Processing timelines quoted in this document are estimates based on standard workload and do not constitute a contractual commitment. Where a statutory deadline applies, that deadline governs and takes precedence over any interval described here.

2. Encounter narrative

Discussed activity modification and a graded return to normal load over the coming six weeks. Written instructions were provided and the patient demonstrated understanding by teach-back before discharge.

Discussed activity modification and a graded return to normal load over the coming six weeks. Written instructions were provided and the patient demonstrated understanding by teach-back before discharge.

Clinical impression at the close of the encounter was eczema, improving; referred to the specialist clinic. The plan was discussed with the patient, who agreed to the proposed follow-up interval and was given written instructions to take home.

Nursing observations were recorded by Marlene Okonjo, Claims Adjuster, who noted no concerns at discharge. Physiotherapy input was provided by Nadia Sorenson and is filed under the same encounter reference.

Staff contact for queries on this encounter: m.okonjo@meridianclaims.example, direct line (312) 555-0148. Do not share staff direct lines with patients.
