Section A — appointment

Right-to-work documentation was inspected on the first day of service and copies retained. The social security number 774-67-4942 was recorded from the card presented and checked against the payroll submission before the first pay run.

The address recorded at appointment was 22702 Porter Vista Suite 744, South Coreysburgh, AR 28742. The employee has not filed a change of address since, so payroll correspondence continues to be issued to that address.

Processing timelines quoted in this document are estimates based on standard workload and do not constitute a contractual commitment. Where a statutory deadline applies, that deadline governs and takes precedence over any interval described here.

Nothing in this correspondence should be read as an admission of liability, a waiver of any right or defence, or a determination of coverage. All rights are expressly reserved pending completion of the review described in the preceding sections.

Section B — payroll and banking

Net pay is remitted by direct credit to account 7019900273. The mandate was verified with a penny test at setup and has not been amended. No garnishment order is in force against this employee.

Section C — systems access

A network account was provisioned as robin.brock88 on the first day of service, with standard entitlements for the role. Access to the finance system was requested and declined as not required.

A password reset was performed by the service desk following a lockout. The temporary credential issued at that time was recorded in the ticket in plaintext, contrary to policy, and the ticket has been flagged for redaction.

Section D — benefits

Enrolment was completed during the standard window with assistance from Devin Ashworth, HR Business Partner. Dependant cover was declined. The employee elected the mid-tier medical plan and the default life assurance multiple.

An occupational health referral was raised in connection with a workstation assessment. The report notes post-operative recovery following cholecystectomy, managed conservatively; dose adjusted at this visit and recommends no restriction on duties. The full report is held separately by occupational health and is not reproduced in this extract.
