

Riverbend Health — Consolidated Patient Record

Record assembled ENC-2025-579344 · medical record number MRN2274489 · printed for internal review

This record consolidates the registration data, encounter notes, results and billing entries held for the patient named below. It supersedes any partial extract previously circulated.

1. Registration

Patient of record: **Autumn Cox**, date of birth 1992-05-27. The patient resides at Unit 8373 Box 4031, DPO AE 90317 and confirmed at check-in that this address remains current for correspondence and for the mailing of after-visit summaries.

The patient is best reached on 001-963-463-1797x0623 during business hours and has opted in to portal messaging, delivered to autumn.davis11@gmail.com. Interpreter services were not required.

Registration verified against photo identification presented at the desk. No discrepancy noted between the presented document and the record.

For coordination of benefits the registrar recorded that the social security number on file is 393-61-2274; this was read back and confirmed. The patient declined to supply a secondary insurer at this time.

Questions about the content of this file should be directed to the case owner identified on the cover page. Requests for copies must be made in writing and may be subject to a reasonable reproduction fee. Allow ten business days.

This document and any attachments are confidential and intended solely for the named recipient. If you have received it in error, notify the sender and destroy all copies. Retention of this record is governed by the schedule in force at the time of creation and may be subject to legal hold.

Where a discrepancy exists between the summary tables and the underlying records, the underlying records govern. Summary figures are provided for convenience only and are regenerated whenever the source data changes.

2. Encounter narrative

Patient presented ambulatory and in no acute distress. Vital signs were within normal limits at triage. Orientation to person, place and time was intact throughout the encounter and no acute neurological deficit was observed.

Wound site inspected; no erythema, discharge or dehiscence. Dressing changed using aseptic technique. Advised to keep the area dry for a further 48 hours and to return sooner if fever develops.

Clinical impression at the close of the encounter was migraine with aura, stable since the last visit; referred to the specialist clinic. The plan was discussed with the patient, who agreed to the proposed follow-up interval and was given written instructions to take home.

Nursing observations were recorded by Yolanda Bright, Account Servicing Lead, who noted no concerns at discharge. Physiotherapy input was provided by Errol Vance and is filed under the same encounter reference.

Staff contact for queries on this encounter: y.bright@ironbridgebank.example, direct line (216) 555-0113. Do not share staff direct lines with patients.

Nothing in this correspondence should be read as an admission of liability, a waiver of any right or defence, or a determination of coverage. All rights are expressly reserved pending completion of the review described in the preceding sections.

Processing timelines quoted in this document are estimates based on standard workload and do not constitute a contractual commitment. Where a statutory deadline applies, that deadline governs and takes precedence over any interval described here.
