### **Tab 3 — identity verification record**

Identity was verified in person at the office. The client produced a passport, number 747382621, which was photocopied and placed on the file. The date of birth given as 1966-09-27 is consistent with the document presented.

Verification was carried out by Errol Vance, Field Investigator, who confirms that the original document was seen and that the copy on file is a true likeness.

#### **Tab 4 — medical report (extract)**

Reviewed the current medication list with the patient, who reported good adherence and no new adverse effects. No changes were made to the regimen at this visit. Repeat metabolic panel ordered for the next scheduled review.

So far as is material to the claim, the report records post-operative recovery following cholecystectomy, stable since the last visit; lifestyle advice given and declined referral. The examining clinician expresses no opinion on causation beyond the observations set out in the body of the report.

The remainder of the report deals with matters not in issue and has been omitted from this extract. A complete copy is available for inspection on reasonable notice.
