Payment authorisation

The excess was collected by card at the time of authorisation. The card terminal receipt shows only the last four digits, 1924, but the payment processor log retained the full PAN 9999442944401924 against the transaction, which is the exposure recorded on this file.

Amounts shown are stated in United States dollars unless otherwise indicated. Figures may be rounded to the nearest cent and totals may therefore differ from the sum of their components by a small margin. Corrections identified after issue will be reflected in the next scheduled statement rather than by reissue.
