Tab 3 — identity verification record

Identity was verified in person at the office. The client produced a passport, number 561784080, which was photocopied and placed on the file. The date of birth given as 1949-11-19 is consistent with the document presented.

Verification was carried out by Devin Ashworth, HR Business Partner, who confirms that the original document was seen and that the copy on file is a true likeness.

Tab 4 — medical report (extract)

Reviewed the current medication list with the patient, who reported good adherence and no new adverse effects. No changes were made to the regimen at this visit. Repeat metabolic panel ordered for the next scheduled review.

So far as is material to the claim, the report records vitamin D deficiency, recently escalated to specialist care; dose adjusted at this visit. The examining clinician expresses no opinion on causation beyond the observations set out in the body of the report.

The remainder of the report deals with matters not in issue and has been omitted from this extract. A complete copy is available for inspection on reasonable notice.
