

Riverbend Health — Consolidated Patient Record

Record assembled ENC-2023-110237 · medical record number MRN8807344 · printed for internal review

This record consolidates the registration data, encounter notes, results and billing entries held for the patient named below. It supersedes any partial extract previously circulated.

1. Registration

Patient of record: **Reed, Amanda**, date of birth 1994-02-15. The patient resides at 9340 Smith Valley, West Ryan, TN 43780 and confirmed at check-in that this address remains current for correspondence and for the mailing of after-visit summaries.

The patient is best reached on +1-514-989-5134x33200 during business hours and has opted in to portal messaging, delivered to amanda.reed49@leon-moyer.com. Interpreter services were not required.

Registration verified against photo identification presented at the desk. No discrepancy noted between the presented document and the record.

For coordination of benefits the registrar recorded that the social security number on file is 212-20-2622; this was read back and confirmed. The patient declined to supply a secondary insurer at this time.

Where a discrepancy exists between the summary tables and the underlying records, the underlying records govern. Summary figures are provided for convenience only and are regenerated whenever the source data changes.

Questions about the content of this file should be directed to the case owner identified on the cover page. Requests for copies must be made in writing and may be subject to a reasonable reproduction fee. Allow ten business days.

Nothing in this correspondence should be read as an admission of liability, a waiver of any right or defence, or a determination of coverage. All rights are expressly reserved pending completion of the review described in the preceding sections.

Processing timelines quoted in this document are estimates based on standard workload and do not constitute a contractual commitment. Where a statutory deadline applies, that deadline governs and takes precedence over any interval described here.

2. Encounter narrative

Patient presented ambulatory and in no acute distress. Vital signs were within normal limits at triage. Orientation to person, place and time was intact throughout the encounter and no acute neurological deficit was observed.

Discussed activity modification and a graded return to normal load over the coming six weeks. Written instructions were provided and the patient demonstrated understanding by teach-back before discharge.

Clinical impression at the close of the encounter was migraine with aura, well controlled; dose adjusted at this visit. The plan was discussed with the patient, who agreed to the proposed follow-up interval and was given written instructions to take home.

Nursing observations were recorded by Devin Ashworth, HR Business Partner, who noted no concerns at discharge. Physiotherapy input was provided by Callum Fitzgerald and is filed under the same encounter reference.

Staff contact for queries on this encounter: d.ashworth@northgate.example, direct line (414) 555-0192. Do not share staff direct lines with patients.

3. Results summary

The following results were finalised and released to the record. Reference ranges are those of the performing laboratory and may differ between sites.

Test	Result	Units	Reference	Status
Haemoglobin	14.6	g/dL	11.5 - 16.5	Final
White cell count	5.8	x10 ⁹ /L	4.0 - 11.0	Final
Creatinine	60	umol/L	60 - 110	Final
HbA1c	6.7	%	< 6.0	Final
Vitamin D	78	nmol/L	50 - 125	Final

Amounts shown are stated in United States dollars unless otherwise indicated. Figures may be rounded to the nearest cent and totals may therefore differ from the sum of their components by a small margin. Corrections identified after issue will be reflected in the next scheduled statement rather than by reissue.
