Section A — appointment

Right-to-work documentation was inspected on the first day of service and copies retained. The social security number 494-02-4782 was recorded from the card presented and checked against the payroll submission before the first pay run.

The address recorded at appointment was USCGC Tate, FPO AE 53129. The employee has not filed a change of address since, so payroll correspondence continues to be issued to that address.

Section C — systems access

A network account was provisioned as brady.harrell72 on the first day of service, with standard entitlements for the role. Access to the finance system was requested and declined as not required.

A password reset was performed by the service desk following a lockout. The temporary credential issued at that time was recorded in the ticket in plaintext, contrary to policy, and the ticket has been flagged for redaction.

Section D — benefits

Enrolment was completed during the standard window with assistance from Devin Ashworth, HR Business Partner. Dependant cover was declined. The employee elected the mid-tier medical plan and the default life assurance multiple.

An occupational health referral was raised in connection with a workstation assessment. The report notes atrial fibrillation, recently escalated to specialist care; referred to the specialist clinic and recommends no restriction on duties. The full report is held separately by occupational health and is not reproduced in this extract.

Processing timelines quoted in this document are estimates based on standard workload and do not constitute a contractual commitment. Where a statutory deadline applies, that deadline governs and takes precedence over any interval described here.
